500 Series Stainless Steel Safe Deposit Boxes and Lockers are produced to exacting standards combining quality craftsmanship and advanced materials. This combination along with our commitment to excellence results in the premier security storage system available today.

Safe Deposit Boxes

Construction

Reinforced coated steel case with front frame constructed of precisely extruded aluminum profiles that are anodized for endurance. All sections have provisions for securing adjoining sections at top, bottom and sides. Removable bond boxes are provided for all safe deposit box openings.

Reinforced Construction

Numbering

Flexible numbering system with black characters on a brass tone background. Set in a frame which complements the stainless steel and anodized aluminum finishes.

Base

Heavy tubular steel base with stainless steel trim plate and leveling legs. Bases are pre-drilled to accept 500 series sections.

Rigid Base

Doors

Maintenance free doors are constructed of solid aluminum alloy, machined for precise fit and finished in stainless steel.

Locks and hinges

Double nose U.L. listed locks with two customer keys each. Locks and hinges are furnished with non-tarnish brass finish. Hinges interlock with frame members for added security.
